

# Isaac Montaña Fernández

Software designer and developer focused on interactive applications. I specialize in innovative technological solutions that enhance the user experience, balancing functionality and aesthetics. I manage projects with efficiency and attention to detail, adapting quickly to new tools.

## Work experience

### Customer Experience – Voice

TaskUs, Cali February 2026 – April 2026

Customer support and inquiry resolution through phone and digital channels. Case management, request follow-up, and adherence to service metrics. Use of internal tools and effective communication in high-demand environments

### Junior Content Developer (eLearning)

Ally Rite LLC (Remote) August 2025 – February 2026

Development and adaptation of interactive eLearning modules using Articulate Storyline and Review360. Implementation of revisions, multimedia adjustments, and video subtitling based on client feedback. Preparation of SCORM deliverables and organization of project files in collaborative environments.

### UI / UX Designer

Gases de Occidente, Cali February 2024 – June 2024

UX/UI design for an internal platform focused on document management and construction project tracking. Definition of user flows, wireframes, and visual design using Figma for multiple operational roles.

### Web Designer

ASOCREA, Cali June 2023 – July 2024

Web and visual design for institutional identity, website structure, and graphic materials. Support in content organization, visual communication, and digital presence.

## Education

### Undergraduate Interactive Media Design

Universidad ICESI, Cali 2021–2025

### Advanced english

Language learning center Learn English, Cali 2020

### English courses

Cultural center Colombo Americano, Cali 2019

### High School

Colegio Andino, Cali 2019

## Extracurriculars

### Güinev member

Interactive Media Design student group June 2021 – July 2022

I was a member of Güinev, where I designed content for social networks and welcomed new members. I also largely managed the organization of video game tournaments and actively participated in improving the university environment for students of the career.
